HONDA S2000 F20C/F22C High Stopper Metal Head Gasket	Bore/88mm	Thickness/1.1mm	12251-F20-011	19,000 YEN
HONDA S2000 F20C/F22C High Stopper Metal Head Gasket	Bore/90mm	Thickness/1.1mm	12251-F20-111	19,000 YEN

### Feature

Designed for low compression ratio applications such as turbo charging, etc.

(TODA free adjusting cam gears are required.)

Can also be used to adjust the compression ratio when blocks and heads that have required their face's skimmed.

Large diameter version is also available for oversize-size pistons.
