TODA High Power Muffler (Resonator) Single Silencer for Toyota86/Subaru BRZ

Toyota 86 installation

TODA Racing introduces a Single Silencer ϕ 60 High Power Muffler (With Resonator) for the Toyota86/Subaru BRZ. Studies in balance the effects of noise and performance have enabled us to reach a good specification. Improving the sound by reducing the unpleasant droning sound when “accelerator-off” by the use of a resonance pipe (resonator). As well an introducing a cool metallic sound particularly when “acceleration-on” which resembles that of a jet engine at takeoff.

A large mass single silencer for a ‘gentler sound’.

Titanium end pipes designed with ‘melted edge’ to improve robustness, along with the blue tint to enhance a sporty look.

(Stainless steel material) Center part ϕ 60mm , (Stainless steel material) Rear branch part ϕ 50mmx2 , (Titanium material) Tail part ϕ 100mm.

Toyota86 / Subaru BRZ ϕ 60mm High Power Single Silencer 18000-FA2-S00 155,000yen

※ At the same time, TODA twin silencer model is started sales as well.
Designed to give a slightly higher tone & intoxicating sound than the single silencer.
