TODA FD2 Big Single Throttle

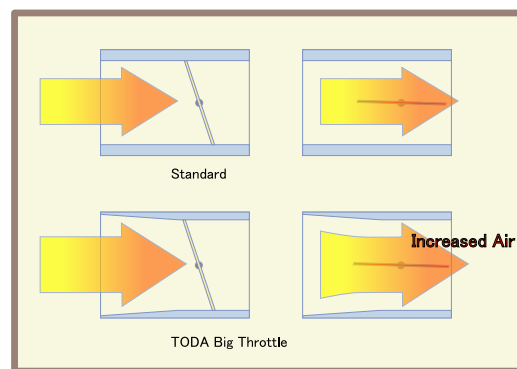

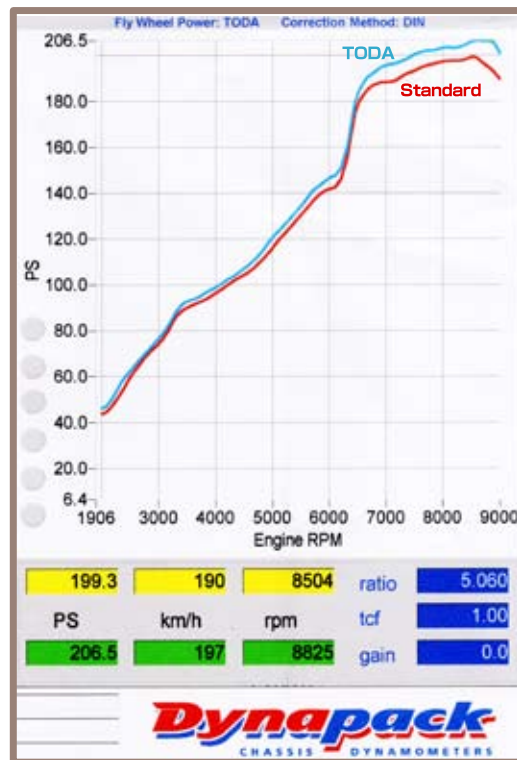

16400-K20-200

K20A FD2/CIVIC-R big throttle

WITHOUT COMPROMISE

16400-K20-200/Back side

K20A FD2/CIVIC-R big throttle

**Big Single Throttle Body**

TODA FD2-R big single throttle newly added to the line-up .

Increasing the diameter of the throttle and in combination with a tapered entrance helps to increase the amount of air the engine can breathe, giving improved performance.

Dimensions of throttle valve are 66.5mm up from 64mm for the valve diameter and the tapered entrance starting at a diameter of 70.4mm. All built-in parts are new. No trade-in is required so you get more performance and a new throttle assembly.

The power graph shown above compares a stock throttle with the TODA Big Single

Throttle when fitted to the Toda Racing FD2 Civic (2150KIT) demo car.

Improvements in performance of up to 7 H.P. have been made.

K20A (FD2) Big single throttle body 16400-K20-200 List price 58,000 yen
