

What's new !!

SUZUKI Swift Sports(M16A) Flywheel & Clutch KIT (Metallic Disc & Sports Disc)

WELL BALANCED

Super response!! Improved circuit lap times by shortening braking distance.

Swift sports M16A (ZC31S) Ultra Light Weight Chrome-molly Fywheel	Price 46,000 yen
Swift sports M16A (ZC31S) Metallic clutch kit	Price 98,500 yen
Swift sports M16A (ZC31S) Sports clutch kit	Price 89,900 yen

■TODA Original design Chrome Molly Flywheel with light weight & improved strength

note : The most important element of a flywheel is its inertia ($0.31\text{kg}\cdot\text{cm}\cdot\text{S}^3$) this is more important than the weight of the unit. Toda Racing designed flywheels are designed to improve weight, inertia and strength haracteristics helping to improve the response of the vehicle whether accelerating or braking.

TODA Light Weight Flywheel + Strengthened Clutch Cover + Clutch Disc with Well-Balanced

26000-M16-00M	98,500 yen	Metallic Clutch KIT (Well Balanced)
