S2000 AP2 Big Single Throttle Body

“TODA Big Single Throttle Body / S2000 AP2 (F22C)” newly added to the line up, joining the Integra-R and Civic-R (DC5/EP3) as well as the S2000 (AP1).

Increasing the diameter of the throttle valve and in combined with a tapered entrance helps to increase the amount of air the engine can breathe, giving improved performance.

Dimensions are 66.5mm up from 64mm for the throttle valve diameter and the tapered entrance starting at a diameter of 70mm. TODA's AP2 Big single throttle is based on a new part, no trade-in is required so you get more performance and a new throttle assembly.
