SUZUKI SWIFT SPORT M16A Exhaust Manifold

SWIFT SPORT ZC31S/M16A

Exhaust manifold(4-2-1 SUS) 18100-ZC3-100 Price 94,000 yen

In order to get the best performance, engine power, efficiency, this exclusive exhaust manifold design takes into consideration not only the special characteristics of the M16A engine but also the results of an extensive bench testing program.

- Racing purpose only(the manifold catalyst is not included)
 - A bench test(Equal length 4-2-1+ Taper)Design
 $\phi 42.7\text{mm} \rightarrow \phi 45\text{mm} \rightarrow \phi 50\text{mm} \rightarrow \text{Taper} \rightarrow \phi 54\text{mm}$
 ※Taper design is adopted from feedback from both racing and the bench testing.
 - Racing high flow junctions design
 Each section of the manifold has optimized pipe lengths, diameters, and angles as well as high flow junctions.
 - With the service adapter for A/F sensor (3 bosses are provided)
 - Made of light weight stainless steel for both durability and looks.
 - Flange manufactured by high precision machining center.
 - The standard catalyst can not be used.
- ※ Though joint faces may have different diameters, this can still be used with stock muffler.
