

## What's new !!

S2000  $\Phi$  70mm High Power Muffler System for TODA 2.35/2.4L KIT

S2000 catalyst adapter from 60mm to 70mm

In order to get the best performance, engine power, and efficiency, from the special characteristics found in the S2000 Toda 2350cc or 2400cc stroker kits, Toda has developed this exclusive 70mm muffler system through extensive Dyno and circuit testing .

- Straight blue titanium end pipe.

Straight tail style titanium end pipe has been designed to reduce over hanging weight and to give improved looks. Blue heat treatment giving a hard worked racing image. With the end receiving special treatment to prevent cracking.

- Stainless steel & straight diameter system.

The internal design is based around a constant  $\phi$  70mm pipe, with no bends or restrictions the engine is able to breath more freely so releasing more power.

(Stainless) Center pipe  $\phi$  70 mm + Rear pipe  $\phi$  60 mm  $\times$  2 + (Titanium)Tail pipe  $\phi$  90 mm / weight 14.4kg

S2000  $\Phi$  70mm High Power Muffler System 18000-AP1-701 List Price 150,000yen  
(For AP1/AP2 )

S2000  $\Phi$  60-70mm Catalyst Adapter 18160-AP1-700 List Price 25,000yen

Note : Designed to give a smooth connection between  $\Phi$  60mm of Exhaust manifold end and 70mm of Muffler Top.
