(Air-conditioner model)
List price 52,000 yen 13810-FA2-HAC

Light Weight Front Pulley KIT for the FA20 has received a good reputation, TODA Racing have now added a Light Weight Idler Pulley set to complement the front pulley kit.

Recommended for thoughts who have already installed the TODA Light Weight Pulley Kit. Or for thoughts wanting to keep the original pulley ratio for high load applications such as superchargers, were increased strength idler pulleys can help. These idler pulleys are a direct replacement for the standard pulleys.

Made from A7075 duralumin and given a hard anodized (Alumite) coating.

Light Weight Front Pulley KIT for the FA20, is designed with a revised pulley ratio. To better balance between engine loads and improved acceleration performance. New belt included .
