## TOYOTA 86/ SUBARU BRZ Exhaust Manifold

TOYOTA 86/ SUBARU BRZ Exhaust Manifold (less catalyzer)

TOYOTA 86/ SUBARU BRZ Exhaust Manifold (less catalyzer spec) 18100-FA2-000 150,000 yen

TODA Racing has released an exhaust manifold for the FA20 (Less catalyzer).

For use with either a stock engine or as recommended for the 2.3 liter TODA stoker kit.

In order to flow exhaust gas smoothly, attention has been paid to equalization, lengths, layout and junctions.

- Smooth form. Looking good does not always mean good performance especially with welds and joints. TODA Racings exhaust manifolds are manufactured to high standards with particular attention paid to the internal surfaces, welds and joints were all the real work is done.

- Outer diameters for the different sections are as follows 45mm-50mm-54mm-taper-57mm.
- Precision CNC Machined head flanges.
